2. TOURNAMENT LINE-UPS:

The opposing team captains will determine home and visitor by toss of a coin. Each captain shall have his own scoresheet and place his lineup without knowledge of the other team's lineup except: **When one team is short a player, they must notify the opposing team as to which position will be vacant.**

- Start of Match All matches will start at their posted time if the assigned table is available. If a player/players is absent, the match must still begin and the absent player/players will have until the end of that round to show up. If they are not there by the end of the round, the absent person/persons will lose that game 10-0. This rule is the same for all the rounds.

Tournament Substitution:

1. A team may use one substitute player during a match if the following criteria are met:
 - A. The opposing team captain must be notified before the start of the round in which the substitution is being made.
 - B. A substitute player will not be allowed to play any opposing player more than once.
 - C. Once a player has played, he/she must keep that same position unless removed for a round and reinstated in a later round.
2. To be eligible to play in the finals a player must play in at least one match with that team prior to the 3rd Place Match on the Winners or Losers side of the Bracket.

Wrong player(s) playing in a given game:

If noticed before the game is completed, the game will be restarted with the correct players playing.

If the game has been completed and those two players are scheduled to play each other in a later game in the match, the result will be moved to the round where they correctly play each other.

If the game has been completed but those two players are not scheduled to play each other in the match, the result of the game that they played will be deleted and that game will be replayed with the correct players playing.

3. CAPTAIN'S DUTIES:

A. Coaching:

1. Coaching will not be allowed around the table. Conversation is allowed away from the table when it **is not your turn**. Any violation of this rule will be treated as a foul.
2. It is considered to be your turn as soon as your opponent has completed his turn!

B. Tournament Protest Procedure

In the event a person or team wishes to protest a player's or a team eligibility, the protesting team or person will be required to deposit \$100 with tournament officials. If protesters are correct in their protest, they will be refunded their deposit and

the tournament officials will take proper measures in dealing with the situation. If protesters are incorrect in their protest, they will forfeit their deposit.

C. Officiating:

1. Only the players involved may call an infraction! A player must stop shooting when a foul is called. If a player refuses to yield to a foul call, the opposing player may protest.
2. All fouls must be called and acknowledged before the next shot is taken (exception: scratching). If your opponent commits a foul and you did not receive his/her acknowledgment of such foul prior to touching the cue ball, you have committed a foul (exception: scratching).
3. An "Official Referee" can (and should) be called by any player to judge a potentially controversial shot before the shot is taken! When called, the referee is in complete charge of the game. He makes all decisions, and they are final; unless the penalized player cites rules that substantiate a protest, in which case, the referee may reverse his decision. A judgment call cannot be protested!
4. The captains should try to settle any dispute that arises, however, a referee should immediately be called if a settlement is not quickly attained!

4. MATCH SCHEDULES:

Teams should check in 30 minutes prior to match time to formulate the lineups on the score sheet. **Slow play will not be tolerated.**

TEAM FORFEIT RULE:

All matches begin at the scheduled match time. The minimum amount of players needed to begin at the scheduled match time is three in the Open and two in the Women's division. If you do not have the minimum needed to begin at the scheduled match time, you will forfeit. A "legal team" consists of at least four players shooting in the Open division and at least three players shooting in the Women's division. It is a forfeit if a "legal team" is not present at 30 minutes after the scheduled match time even if the players present are not finished shooting. It is a forfeit if the players present finish their first round match and the player needed to make a "legal team" has not arrived, even if it is not yet 30 minutes past the scheduled match time.

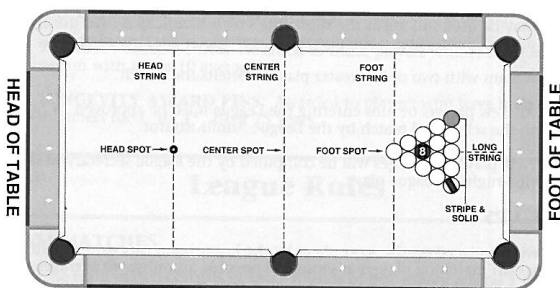

5. TOURNAMENT SCORING:

Each player receives one point for each of his group of balls (stripes or solids) legally pocketed, plus three points when the 8-ball is legally pocketed. A player is always credited with ten points when he wins a game. If the shooter pockets the 8-ball before it is legal to do so or if he scratches on the 8-ball, the opponent receives ten points. The loser cannot score more than seven points.

The team with the highest point total at the end of the match is the winner. When the match is mathematically impossible for a team to win, the match is over and the winning team captain should

immediately report the result to the tournament director's table. Check the match score each game because if a dispute in scoring should arise, the **Home Sheet will be considered official!**

- **Ties:** If total points are tied at the end of the regulation match, **one game will be played between a player selected from each team (Break will be determined by coin toss).**
- **Team Match Point:** (Midwest Sanctioned Tournaments only): **A match cannot be won or tied by a player pocketing the match point (ball) for his team on an illegal shot or a shot resulting in a ball in hand or loss of game foul.** If the point (ball) to tie or win is pocketed on an illegal shot or a shot resulting in a ball in hand, the point (ball) will be spotted and the opponent will

receive "Ball in Hand." If the point (ball) to tie or win is pocketed on a shot resulting in a loss of game foul (example: kicking the 8-Ball in early or scratching on the 8-Ball) that shooter will lose the game but not be given credit for that point (ball) that won or tied the match. These special rules apply only to points (balls) that win or tie a match.

Both Team Captains will sign the scoresheet before it is turned in!

6. 8-BALL RULES OF PLAY

A. BALLS AND RACKING:

The Pocket Billiard Table

1. The game is played with one cue ball and 15 numbered object balls.
2. The balls are racked in a triangle at the foot of the table with the 8-ball in the center of the triangle, the first ball of the rack on the footspot, a stripe ball in one corner of the rack and a solid ball in the other corner, as the above illustration shows.
3. The object of the game is to make one group of numbered object balls, either stripes or solids, and then LEGALLY POCKET THE 8-BALL which then wins the game.

B. BREAK SHOT – All games are "Rack Your Own Breaks."

1. Teams will flip a coin to determine home team. Start of play, order of play, and breaker is determined by score sheet. Singles: First game "break" determined by coin toss. The break alternates thereafter.
2. If the breaker hits the racked balls with the cue ball driving four

or more **numbered** balls to a cushion or pocketing one or more object balls, the game is considered started. If the player fails to make a legal break, it is not a foul; however, the opponent has the option (1) accepting the table in position and shooting, or (2) have the balls reracked and shooting the break himself or have original breaker rebreak.

3. Stopping or deflecting the cue ball prior to hitting the racked balls are considered fouls and loss of turn. The opponent will receive cue ball in hand behind the headstring.
4. When positioning the cue ball for the break shot, the base of the ball must be behind the headstring (kitchen).
5. If a player scratches on a legal break shot, (1) all balls pocketed remain pocketed (exception, the 8-ball), (2) it is a foul, (3) the table is open. Please Note: Incoming player has cue ball in hand behind the headstring and may not shoot an object ball **whose base is not outside** the headstring, unless he first shoots the cue ball past the headstring and causes the cue ball to come back behind the headstring and hit the object ball. **If a player positions the cue ball completely and obviously outside the kitchen and shoots the cue ball, it is a foul, if called by the opponent.**
6. **The opposing player must inform the breaking player of improper position of the cue ball before the shot is made.** If the opposing player does not so inform the breaking player before the shot is made, the break is considered legal. If the shooting player is informed of improper positioning, he must then reposition the cue ball.
7. 8-Ball made on the break will not determine the outcome (win or loss) of the game. With an 8-ball legally pocketed on the break, the breaker may rerack the balls and break again or have the 8-ball spotted and continue shooting. Should the breaker pocket the 8-ball and scratch, the incoming player has the option of spotting the 8-ball and shooting the table in position or racking the balls and assuming the break. Should the incoming player decide to spot the 8-ball, he must shoot from behind the headstring, that is, from "the kitchen".
8. If the player legally breaks the racked balls and does not make any balls, his opponent then shoots, having an open table.
9. If a player jumps an object ball off the table on the break shot, it is a foul and the incoming player has the option of (1) accepting the table in position and shooting, or (2) taking cue ball in hand behind the headstring and shooting. Any jumped balls are spotted in numerical order.

C. OPEN TABLE

The table is "open" when the choice of groups (stripes or solids) has not yet been determined. When the table is open, it is legal to hit a solid first to make a stripe or vice versa. **Note: The table is always open immediately after the break shot.** When the table is open, it is legal to hit any solid or stripe or the 8-ball first

in the process of pocketing the called stripe or solid. On an open table, all pocketed balls remain pocketed. The choice of stripes or solids is not determined on the break even if balls are made from only one or both groups. The choice of group is determined only when a player legally pockets a called object ball after the break shot.

Note: The score of a game will automatically be 10-0 if the outcome is decided before the groups of balls have been determined!

D. GAME

In Call Pocket, obvious balls and pockets do not have to be indicated. It is the opponent's right to ask which ball and pocket if he is unsure of the shot. Banks and combinations are not considered obvious and both the object ball and the pocket must be called or it is a loss of turn. When calling the shot, it is NEVER necessary to indicate details such as the number of cushions, banks, kisses, caroms, etc. Any balls pocketed on a foul remain pocketed, regardless of whether they belong to the shooter or the opponent.

The opening break is not a "called pocket." Any player performing a break shot in 8-Ball may continue to shoot his next shot so long as he has legally pocketed any object ball on the break.

When a player has pocketed all of the balls in his group, he then shoots at the 8-ball.

E. PLAY

1. If a shooter inadvertently pockets his opponent's ball, it remains down, however, if the shooter does not legally pocket one of his own group, he loses his turn.
2. Each player continues to shoot so long as he legally pockets any of his object balls (Exception: calling a safety). Should a player fail to pocket his designated group ball, he shall lose his turn.
3. If a player fails to hit the 8-ball while shooting at it, it is a foul and the game continues. **When the 8-ball is the legal object ball, a scratch or foul is not a loss of game if the 8-ball is not pocketed or jumped off the table. Incoming player has cue ball in hand.**
4. In the event the cue ball or an object ball stops on the edge of the pocket then falls into the pocket because of vibrations, fan or stamping of feet, it shall be replaced on the edge of the pocket as near as possible to its position before interference.
5. If any object ball is jumped off the table, it is a foul and loss of turn, unless it is the 8-ball, which is a loss of game. Any jumped object balls are spotted in numerical order.
6. SLOW PLAY RULE: Exaggerated slow play will be penalized. After a warning, any longer than ONE MINUTE between shots will be a foul. The third infraction will result in loss of game. During National competition, referee's judgment will prevail and both players will be timed.
7. STALEMATED GAME: If in three consecutive turns at the table by

each player (six turns total), they purposely foul or scratch and both players agree that attempting to pocket or move an object ball will result in immediate loss of game, then the game will be considered a stalemate. The balls will then be reracked and the breaker of the stalemated game will break again. Please Note: Three consecutive fouls by one player is not a loss of game.

F. LOSS OF GAME

1. Pocketing the 8-ball when it is not the legal object ball except on an opening break.
2. Pocketing the 8-ball on the same stroke as the last of his group of balls.
3. Scratching while pocketing the 8-ball is a loss of game.
4. Jumping or knocking the 8-ball off the table at any time.
5. Pocketing the 8-ball in a pocket other than the one designated.
6. Fouling while (pocketing) the 8-ball in the designated pocket.
7. Third infraction of the slow play rule.

Note: All infractions above must be called before the next shot is taken. Only the players involved may call an infraction.

G. LEGAL SHOTS

On all shots (except on the break and when the table is open), the shooter must hit one of his group of balls first and (1) pocket any group ball, or (2) cause the cue ball or any other ball to contact a rail.

(There are two groups of balls: stripes and solids).

Once the groups of balls have been determined, players cannot change their group of balls at anytime during a game.

Please Note: It is permissible for the shooter to bank the cue ball off a rail before contacting his object ball; however, after contact with his object ball, **any group ball** must be pocketed, OR the cue ball or any **other** ball must contact a rail.

"SAFETY" SHOT: For tactical reasons, a player may choose to pocket an obvious object ball and also discontinue his turn at the table by declaring "safety" in advance. A safety shot is defined as a legal shot. **If the shooting player intends to play safe by pocketing an obvious object ball, then prior to the shot, he must declare a "safety" to his opponent or verbally declare a pocket other than the one in which he intends to shoot the ball.** If this is NOT done, and one of the shooter's object balls is pocketed, the shooter will be required to shoot again. Any ball pocketed on a safety shot remains pocketed.

H. FOULING

All fouls must be called and acknowledged before the next shot is taken (**exception: scratching**).

The following results in fouls:

1. Failure to make a legal shot as noted above.
2. Shooting the cue ball into a pocket or off table.
3. It is a foul when a player scratches on the break, or deflects the

cue ball prior to hitting the racked balls. The incoming player receives (cue ball in hand behind the headstring).

4. When placing the cue ball in position, any forward stroke motion contacting the cue ball will be a foul, if not a legal shot.
5. Shooting without at least one foot touching the floor.
6. Coaching is a foul. Any member of a team called for coaching will result in a foul on the team member shooting.
7. Object Ball Frozen to Cushion or Cue Ball.

This applies to any shot where the cue ball's first contact with a ball is with one that is frozen to a cushion or to the cue ball itself. After the cue ball makes contact with the frozen ball, the shot must result in either:

- a) A ball being pocketed, or;
- b) The cue ball contacting a cushion, or;
- c) The frozen ball being caused to contact a cushion attached to a separate rail, or;
- d) Another object ball being caused to contact a cushion with which it was not already in contact.

Failure to satisfy one of those four requirements is a foul.

A ball which is touching a cushion at the start of a shot and then is forced into a cushion attached to the same rail is not considered to have been driven to that cushion unless it leaves the cushion, contacts another ball, and then contacts the cushion again. An object ball is not considered frozen to a cushion unless it is examined and announced as such by either the referee or the players involved prior to that object ball being involved in a shot.

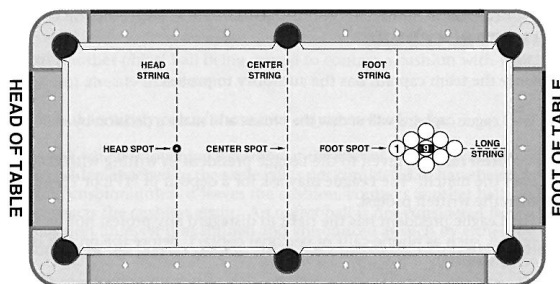

8. **ACCIDENTALLY** moving or touching any ball is not a foul unless:
 - 1) the moved ball is the cue ball or 2) a moved ball makes contact with the cue ball or 3) a moved ball that is jumped off the table or pocketed or causes any ball to be jumped off the table or pocketed. (exception to #3: If the 8-ball is jumped off the table or pocketed, it is loss of game if called by the opponent before the next shot is taken.) Only opponent may replace the ball moved as closely as possible or leave it where it rests. If the shooter replaces the moved ball; it will be considered a foul.
 - a) **If you accidentally move an object ball during a shot and it moves into the path of the cue ball, it is a foul if those balls collide.**
 - b) **If you accidentally touch and move a ball and it falls in a pocket, it is a foul. Your opponent has the choice of leaving the ball down or replacing it on the table as close as possible to its original position.**
 - c) If you **intentionally** touch a ball, it is a foul. (Example: Intentionally resting your hand on a ball to stabilize your bridge.)
9. Picking up or shooting the cue ball while any balls are still in motion is a foul.
10. Push shots and/or double hits will be considered fouls. See General Definitions of Pocket Billiards.
11. With cue ball in hand, touching any object ball with the cue ball is

a foul, or touching any object ball with your hand while touching the cue ball is a foul.

12. When the slow play rule is enforced, taking longer than ONE MINUTE between shots is a foul.
13. Jumping object balls off the table.
14. **After a scratch on a legal break, if a player positions the cue ball completely and obviously outside the kitchen and shoots, it is a foul.**
15. **If your opponent commits a foul and you did not receive his/her acknowledgment of such foul prior to touching the cue ball, you have committed a foul (exception: scratching).** Note: If neutral referees are making a call, the opponent acknowledgment is not necessary if the referee has called a foul.
16. **Illegal jumping of ball.** (See General Definitions #9)

I. PENALTY FOR FOULING

1. Only the players involved may call a foul. In the event of a foul

call, the opposing player receives cue ball in hand anywhere on the table. This means that the player can place the cue ball anywhere on the table (the cue ball does not have to be behind the headstring except on opening break) **or immediately after a foul on the break.**

2. A player must stop shooting when a foul is called. If a player refuses to yield to a foul call, the opposing player may protest.

7. 9-BALL RULES OF PLAY:

- A. **OBJECT OF THE GAME.** 9-Ball is played with nine object balls numbered one through nine and a cue ball. On each shot, the first ball the cue ball contacts must be the lowest numbered ball on the table, but the balls need not be pocketed in order. If a player pockets any ball on a legal shot, he remains at the table for another shot, and continues until he misses, fouls, or wins the game by pocketing the 9-ball. After a miss, the incoming player must shoot from the position left by the previous player, but after any foul the incoming player may place the cue ball anywhere on the table. Players are not required to call any shot.
- B. **RACKING THE BALLS.** The object balls are racked in a diamond shape, with the one ball at the top of the diamond and on the

foot spot., the nine ball in the center of the diamond, and the other balls in random order, racked as tightly as possible. The game begins with cue ball in hand behind the headstring.

- C. **START OF PLAY.** Singles: First game “break” determined by coin toss. The break alternates thereafter. A game starts as soon as the cue ball crosses over the headstring on the opening break.
- D. **LEGAL BREAK SHOT.** The rules governing the break shot are the same as for other shots except:
 - 1. The breaker must strike the one-ball first and either pocket a ball or drive at least four numbered balls to a rail, failure to do so is a foul. Incoming player accepts table the way it lies with ball in hand or requests a rerack with cue ball behind the headstring.
 - 2. If the cue ball is pocketed or driven off the table, or the requirements of the opening break are not met, it is a foul, and the incoming player has cue ball in hand anywhere on the table.
 - 3. If on the break shot, the breaker causes an object ball to jump off the table, it is a foul and the incoming player has cue ball in hand anywhere on the table. The object ball is not respotted.
 - 4. Making the nine ball on the break is an automatic win for the player breaking. However, if the cue ball is scratched when making the nine ball, the nine ball is respotted (using another stripe from tray).
- E. **CONTINUING PLAY.** On the shot immediately following a legal break, the shooter may play a “push out.” If the breaker pockets one or more balls on a legal break, he continues to shoot until he misses, fouls, or wins the game. If the player misses or fouls, the other player begins his turn and shoots until he misses, fouls, or wins. The game ends when the nine ball is pocketed on a legal shot.
- F. **PUSH OUT.** The player who shoots the shot immediately after a legal break may play a push out in an attempt to move the cue ball into a better position for the option that follows. On a push out, the cue ball is not required to contact any object ball nor any rails, but all other foul rules still apply. The player must announce his intention of playing a push out before the shot, or the shot is considered to be a normal shot. Any ball pocketed on a push out does not count and remains pocketed, except for the nine ball. Following a legal push out, the incoming player is permitted to shoot from that position or to pass the shot back to the player who pushed out. A push out is not considered to be a foul as long as no rule is violated. An illegal push out is penalized according to the type of foul committed.
- G. **FOULS.** When a player commits a foul, he must relinquish his run at the table and no balls pocketed on the foul shot are spotted, except the nine ball. The incoming player is awarded ball in hand; prior to his first shot he may place the cue ball anywhere on the

table. If a player commits several fouls on one shot, they are counted as only one foul.

- 1. All fouls must be called and acknowledged before the next shot is taken.
- 2. Touching or moving the cue ball is a foul.
- 3. Coaching is a foul.
- 4. Shooting the cue ball into a pocket or off the table is a foul.
- 5. If the first object ball contacted by the cue ball is not the lowest numbered ball on the table, the shot is a foul.
- 6. If no object ball is pocketed, failure to drive the cue ball or some object ball to a rail after the cue ball contacts the object ball is a foul.
- 7. Pocketing the nine ball and the cue ball with the same stroke is a foul.
- 8. Shooting without at least one foot on the floor is a foul.
- 9. An unpocketed ball is considered to be driven off the table if it comes to rest other than on the bed of the table. It is a foul to drive an object ball off the table. The jumped object ball(s) is not spotted and play continues.

When the cue ball is in hand, the player may place the cue ball anywhere on the bed of the table, except in contact with an object ball. He may continue to adjust the position of the cue ball until he takes a shot.

- H. **NOTES:** A player’s turn begins when it is legal for him to take a shot and ends at the end of a shot on which he misses, fouls or wins, or when he fouls between shots.

When there are only two object balls on the table and a player scratches while pocketing the ball before the nine, it shall be brought up and placed on the footspot (using another ball from the tray).

- I. **END OF GAME.** The game ends at the end of a legal shot which pockets the nine ball; or when a player forfeits the game as the result of a foul.

- **Good sportsmanship will prevail at all times to assure fun and a pleasant time for all.**

- **UNSPORTSMANLIKE CONDUCT**

- 1. Unsportsmanlike conduct is cause for automatic disqualification.
- 2. Two basic types: a) one warning before disqualification; and b) immediate disqualification.

General Definitions of Pocket Billiards

CUE SPECIFICATIONS:

- **WIDTH OF TIP:** Not to exceed 15 mm.
- **LENGTH OF CUE:** 40 inches minimum
- Devices are not allowed for Jump Shots.
- Alternative Racking Devices are not allowed.

1. **STRIKING CUE BALL.** Legal shots require that the cue ball be struck only with the cue tip. Failure to meet this requirement is a foul.
2. **POCKETED BALLS.** A ball is considered as a pocketed ball, if, as a result of an otherwise legal shot, it drops off the bed of the table into the pocket and remains there. A ball that rebounds from a pocket back onto the table is not a pocketed ball.
3. **POSITION OF BALLS.** The position of a ball is judged where its base (or center) rests.
4. **FOOT ON THE FLOOR.** It is a foul if a player shoots when at least one foot is not in contact with the floor. Foot attire must be normal in regard to size, shape, and the manner in which it is worn. Junior League exception.
5. **KITCHEN DEFINED.** The headstring is part of the kitchen. If the base of an object ball is dead center on the headstring, the ball is not playable. This will apply on a scratched cue ball on the break. Likewise, the cue ball, when being put in play from the kitchen (cue ball behind the string), may not be placed directly on the headstring; it must be behind it.
6. **FOULS BY DOUBLE HITS.** It is a foul if the cue ball is struck more than once on a shot by the cue tip (such shots are usually referred to as double hits). If, in the referee's judgment, the cue ball has left initial contact with the cue tip and then is struck a second time in the course of the same shot, it shall be a foul. (Note: this can be a difficult call in officiating, because on shots where the distance between the cue ball and the object is very short, the referee must judge whether the cue ball had time to move out of contact with the cue tip prior to being impeded and then propelled again by the follow through of the stroke.) Nonetheless, if it is judged by virtue of sound, ball position, and action and stroke used that there were two separate contacts of the cue ball by the cue tip on a stroke, the stroke is a foul and must be so called.
7. **PUSH SHOT FOULS.** It is a foul if the cue ball is pushed by the cue tip, with contact being maintained for more than the momentary time commensurate with a stroked shot (Such shots are usually referred to as push shots.) With a cue and object ball frozen, shooting the shot from any angle other than at least 45 degrees above, or at least 45 degrees to the right or at least 45 degrees to the left of center from the straight line of the frozen balls is a foul and must be so called.
8. **JUMPED CUE BALL.** When a stroke results in the cue ball being a jumped ball, meaning jumped completely off the pool table on the floor, the stroke is a foul. The cue ball may leave the playing

surface and return, which is not to be considered a foul.

9. **ILLEGAL JUMPING OF BALL.** It is a foul if a player strikes the cue ball below center ("digs under" it) and intentionally causes it to rise off the bed of the table in an effort to clear an obstructing ball. Such jumping action may occasionally occur accidentally, and such "jumps" are not to be considered fouls on their face; they may still be ruled foul strokes, if, for example, the ferrule or cue shaft makes contact with the cue ball in the course of the shot.
10. **PLAYER RESPONSIBILITY FOULS.** The player is responsible for chalk, bridge, files, and any other items or equipment he brings to, uses at, or causes to approximate the table. If he drops a piece of chalk, or knocks off a mechanical bridge head, as examples, he is guilty of a foul should such item make contact with a cue ball.
11. **BALLS JUMPED OFF THE TABLE.** Balls coming to rest other than on the bed of the table after a stroke (on the cushion top, rails surface, floor, etc.) are considered jumped balls. Balls may bounce on the cushion tops and rails of the table in play without being jumped balls if they return to the bed of the table under their own power and without touching anything not a part of the table. The table shall consist of the permanent part of the table proper. (Balls that strike or touch anything not a part of the table, such as the light fixture, chalk on the rails and cushion tops, etc., shall be considered jumped balls even though they might return to the bed of the table after contacting items which are not parts of the table proper.)

When a stroke results in the cue ball or any object balls being a jumped ball off the table, the stroke is a foul. All jumped object balls are spotted (except in 9-Ball) when all balls have stopped moving.
12. **BALLS MOVING SPONTANEOUSLY.** If a ball shifts, settles, turns or otherwise moves "by itself," the ball shall remain in the position it assumed and play continues. A hanging ball that falls into a pocket "by itself" after being motionless for three seconds or longer shall be placed as closely as possible to its position prior to falling and play shall continue.
13. **SPOTTING BALLS.** A single ball is placed on the foot spot; if more than one ball is to be spotted, they are placed on the long string beginning on the foot spot and advancing towards the foot rail.
14. **JAWED BALLS.** If two or more balls are locked between the jaws or side of the pocket, with one or more suspended in air, the referee shall inspect the balls in position and follow this procedure; he shall visually (or physically if he desires) project each ball directly downward from its locked position; any ball that, in his judgement, would fall in a pocket if so moved directly downward is a pocketed ball, while any ball that would come to rest on the bed of the table is not pocketed. The balls are then placed according to the referees assessment, and play continues according to specific game rules as if no locking or jawing of balls had occurred.

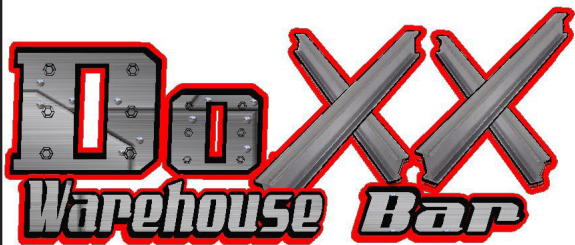

15. **NON-PLAYER INTERFERENCE.** If the balls are moved (or a player is bumped such that play is directly affected) by a non-player during a match, the balls shall be replaced as near as possible to their original positions immediately prior to the incident, and play shall resume with no penalty on the player affected. If the match is officiated, referee shall replace the balls. This rule shall also apply to "act of God" interference, such as earthquake, hurricane, light fixture falling, power failure, etc.
16. **PLAY BY INNINGS.** Players alternate turns (innings) at the table, with a player's inning ending when he either fails to legally pocket a ball, or fouls. When an inning ends free of a foul, the incoming player accepts the table in position.
17. **Object Ball Frozen to Cushion or Cue Ball.**
This applies to any shot where the cue ball's first contact with a ball is with one that is frozen to a cushion or to the cue ball itself. After the cue ball makes contact with the frozen ball, the shot must result in either:
- A ball being pocketed, or;
 - The cue ball contacting a cushion, or;
 - The frozen ball being caused to contact a cushion attached to a separate rail, or;
 - Another object ball being caused to contact a cushion with

which it was not already in contact.

Failure to satisfy one of those four requirements is a foul.

A ball which is touching a cushion at the start of a shot and then is forced into a cushion attached to the same rail is not considered to have been driven to that cushion unless it leaves the cushion, contacts another ball, and then contacts the cushion again. An object ball is not considered frozen to a cushion unless it is examined and announced as such by either the referee or the players involved prior to that object ball being involved in a shot.

18. **PLAYING FROM BEHIND THE STRING.** When a player has the cue ball in hand behind the string (in the kitchen), he must drive the cue ball to a point outside the kitchen before it contacts either a cushion or an object ball. Failure to do so is a foul.
19. **SLOW PLAY RULE.** Exaggerated slow play will be penalized. Certain moments during a game or type of game may require extra thought or concentration. However, continuously taking 1 to 3 minutes between shots is not acceptable. When your opponent abuses this rule, stop play the team captains will assign a player to time your opponent for the rest of the match. After a warning, any longer than one minute between shots will be a foul. The third infraction will result in a loss of game.
20. **SCRATCH.** Cue ball pocketed or knocked off the table.

PROPER BEHAVIOR

Proper behavior, conduct and sportsmanship are required of players at all times. Decisions made by the tournament officials on disputes are FINAL. NO PHYSICAL CONTACT OR INTENT TO HARM OTHER PLAYERS IS ALLOWED ON THE TOURNAMENT FLOOR. PHYSICAL ABUSE TO THE TOURNAMENT LOCATION FACILITIES OR PROPERTY CONTAINED WITHIN AND/OR THE BREAKING OF TOURNAMENT LOCATION RULES, WILL NOT BE TOLERATED ALONG WITH PHYSICAL ABUSE OF ANY KIND TO THE DART MACHINES IS REASONABLE CAUSE FOR FORFEITURE OF GAME OR GAMES, MATCH OR MATCHES, OR UP TO REMOVAL FROM THE TOURNAMENT AT THE DISCRETION OF THE TOURNAMENT DIRECTOR.

No flash photography is allowed during tournament play.

Cell phones must not have an audible ring during tournament play.

CHEATING

Player(s) caught cheating in any way will be penalized, including, but not limited to, immediate ejection from the Tournament or suspension from all Midwest events for a length of time to be determined by the Tournament Committee. The Tournament Committee has full authority and the final determination as to the penalty issued.

PLAYER IDENTIFICATION

Any player or team making unauthorized changes to their rosters or falsifying their identity(ies) may be disqualified by tournament management from this and all future Midwest Dart Association events. Players may be asked for picture identification at any time during the competition.

DART BOARD ASSIGNMENTS

Once a match is called on a specific numbered board, that match must take place on that board unless moved by a tournament official. There are NO EXCEPTIONS. Failure to comply could result in loss of match.

THE TOURNAMENT MATCH

1. Both players/teams pay equally for all games.
2. The player who throws the first dart in a game must announce to the opponent that he/she is starting the game. It is his/her responsibility to make sure the machine is set on the correct game.
3. If the machine is set on the incorrect game and play has begun, the game will be started over. The person who threw the first dart will be responsible for all quarters.

DIDDLING

When diddling, the dart that is closest to the center will determine the winning dart. You may continue throwing until one dart sticks in the target. If the first player hits the center hole in the bull's-eye, the dart will be removed to allow the other player the opportunity to tie.

In the event they are the same distance from the center of the bull's-eye, the players will continue diddling and reverse the order until a winner is determined. The darts will remain in the board.

The winner of the coin toss will have the option to "see or show" on the diddle.

SCHEDULING CONFLICTS AND PROCEDURES

1. No-show player or team: If a player/team is not at the board ready to play 15 minutes after the official start of the event, it will be a loss of match. Scoresheets for no shows should be taken to your control station.
2. For singles and doubles: Five minutes after the official start of play, if a player's/team's opponent is not at the assigned board for that match, proceed to the control station handling that level for that event. The player/team MUST STAY at the control station until such time as a forfeit is called or play can begin. The tournament official in charge of that control station will begin making a series of two calls for the absent player/team. Each call will ask the player/team to meet their opponents at the

control station to begin play. The first call will be made once the referee is notified; the second call will be made five minutes later and allow the player/team one minute. The no-show player or team rule then takes effect (see 1. above).

If a player is late for reasons beyond his/her control but shows up before the start of the second round of play, he/she will be placed in the losers' bracket as space allows

3. For team events:

Team Substitution

All players in a given match must be listed on the official (white) Midwest Team Registration Form for your team.

Entire match must be played with the same players once the match begins.

To be eligible to play in the Final Bracket, a player must play in at least one match during the Round Robin Qualifier.

- a. A team will be given a 15-minute grace period for first-round matches on the first day of the event. There will be no grace period after the first round.
 - b. If less than three players are present 15 minutes after the scheduled start time, that team will be forfeited from the event.
 - c. If a team is missing a player after the 15-minute grace period, it may begin the match with three players, and it must finish the entire round robin with those three players. The vacant spot is passed with no score during the entire game.
 - d. If a team is late for reasons beyond its control but shows up before the start of the second round of play, that match will be rescheduled for the end of the round robin set. This can only be done by a tournament official.
4. Incapacitated Player: Is defined as a player who is unable to compete. If a player is deemed incapacitated and no qualified substitute player is on that team's roster, that team will be forfeited from the event. It is the responsibility of the players and teams to prevent this from occurring, and NO EXCEPTIONS will be made.
5. Forfeiting Team: If a team should not finish a round robin for any reason, the following procedures will apply:
- a. If the advancement of teams is affected, all wins obtained against the offending team will be subtracted from the win totals.
 - b. If no team advancement is affected, all win totals will stay intact.
 - c. Any team (all rostered players) not completing a round robin may be suspended from competition in all Midwest-sponsored events for a period of two calendar years.

6. The Tournament Committee has the discretion to expedite play as needed, including, but not limited to, having one team play on two boards. When starting on two boards, the home team starts on board one and the visitor team starts on board two as identified by the Referee.

TIE-BREAKER PROCEDURE FOR ADVANCING

- Head to head rule for tie-breaker from pod play to bracket play – If 2 teams are tied, the score of their head to head match will determine who advances to bracket play.
- If 3 or more teams are tied and it cannot be broken by head to head rule, then one game of no score cricket will be played. (First team to close everything regardless of score.) All 4 players will be on the same score.
- STARTING ORDER: Flip for diddle, diddle will decide starting order. 1st team to 21 marks will advance to bracket play. If any of the remaining teams are to advance, their advancement will be made on the basis of their head to head match in pod play. IF after one game more than 2 teams are still tied and cannot be broken by head to head, repeat the above to determine who advances.

PLAYER CORRECTABLE FEATURES

These rules apply only on machines that are set up with the "back up feature."

It is each player's responsibility to see that the machine is displaying the appropriate player's number prior to throwing the darts. Play is stopped immediately when the infraction is noticed.

The backup feature should be used to correct the following player errors:

- Shooting out of turn.
- Wrong player shooting.
- Manually scored darts.

The correction must be made in the turn the error occurred, prior to the next player throwing a dart. Both team captains must agree the error falls within the above categories to use the backup feature. Otherwise, a referee must be called.

The backup feature can be used two times per game. If the backup button must be pushed more than one time consecutively to correct the error, this counts as only one use of the feature.

The referee may override the use of the backup feature at his/her discretion if deemed appropriate.

If a player has thrown no more than three darts during his/her turn, he/she will be allowed to make use of the backup feature per the following rules. The backup feature can be used no more than twice, by either team, during a game. AFTER THE SECOND USE OF THE BACKUP FEATURE, ANY INFRACTION WILL BE TREATED AS A FOUL AND A REFEREE MUST BE CALLED.

1. Both team captains must agree to the use of the backup

feature and the only uses for this feature are as follows.

2. If the player throws while the machine is displaying that player's partner or an opponent's number, this will not constitute a foul. If the player has thrown no more than three darts, the backup feature should be used in the presence of both team captains to remove the darts thrown by that player. The game then proceeds normally with the correct player shooting next.
3. If a player throws all three darts on his/her partner's score and the following opponent throws his/her darts before the infraction is noticed A REFEREE MUST BE CALLED. The backup feature will be used to remove all darts involved in the infraction. Play will restart with the correct player from the offending team. The following opponent would have the option of rethrowing or keeping his/her original score.
4. Manually scored points: On an opponent's score, player's own score or partner's score uses the backup feature to remove the manually scored points. Advance player change button to the correct player position and continue play.

APPROVED SCORE CORRECTIONS BY A REFEREE

1. **Shooters Advantage:** Any dart that sticks in the board, but does not register that segment, will be manually scored by an official. A dart that flights a beneficial mark on the way in, but sticks in another segment, will not be manually unscored. Call a Referee, all play must be stopped, darts left in the board and a Midwest referee will make necessary changes. If darts are removed, play continues and the score remains the same. Otherwise, refer to SCORING ON THE ELECTRONIC DART MACHINE. #1. (In the Midwest Captain's Guide)
2. Any dart that sticks in the board and registers two or more times will be corrected by removing the extra points awarded by that one dart. However, a referee must be called to witness the situation and only a referee can make the necessary correction to the score using the back-up feature.

Dart Rules (Effective September 1, 2022)

BASED ON NDA RULES OF PLAY

DART MACHINE SPECIFICATIONS:

8 ft. (96") from Face of Target to Front Edge of Foul Line
5 ft., 8 in. (68") from Floor to Center of Bull's Eye

THROWING AREA

The area that is directly in front of the assigned dartboard, not to exceed either dart board on the left or right of the assigned board, is considered the official "throw area." Up until the time a player has thrown a dart, he/she is allowed to leave the throw area. Once a dart has been thrown, a player is not allowed to completely leave the throw area to the rear or the side. Partially stepping on or placing one foot over the back or the side does NOT constitute a foul. The "players box" located directly behind the foul line has been reserved for the players competing in the match. This area is considered part of the throw area. The only player allowed in the box is the one that is currently shooting. Any player who completely removes himself from the throw area has indicated that their turn is complete. For wheelchair bound participants, the torso can be on but not across the foul line.

GENERAL RULES OF PLAY

1. Players stand at the "throw" line, 96 inches horizontally from the face of the dart board. It is legal to lean over the line. They may step on, but not across, the line.
2. Players may use their own darts if they meet the following specifications:
 - A. They must be plastic-tip darts.
 - B. Flights may be any length as long as they do not exceed 8" in total length.
 - C. Flights may be no wider than 3/4", as measured from shaft to flight edge, and may not have more than four wings.
 - D. Complete darts may not exceed 20 grams in weight.

- E. Darts may not have broken or cut off tips.
- F. Darts will be inspected upon request.
3. Each player throws a maximum of three darts per turn. Darts must be thrown only when the machine instructs to "Throw Darts" and the proper player's number is lit.
4. It is not required for a player to throw all three darts on every turn. A player may pass or throw fewer than three darts. A player will always be allowed to throw all three darts unless a foul occurs.
5. Any dart thrown counts as a throw, whether or not it is registered on the machine. A throw counts if it misses the board and bounces out, or if it misses the board completely. A player may not throw any darts over again. Dropped darts may be thrown again.
6. Darts on the board may not be touched until the turn is over, the "Player Change" is activated, and the machine recognizes the end of the turn. Exception: When a dart is in the board and machine reads "Stuck Segment," that dart must be removed by opposing team captain before other darts are thrown.
7. A round is defined as the period of time from the end of a player's turn to the start of their next turn. On games with stacked teams (players on one score), a round is defined as the end of the player's turn to the start of their partner's turn.

RULES OF PLAY - 301/501

1. The game is 301/501 Any In-Any Out. The Bull's Eye will count 50 points.
2. All players start with 301/501 points and attempt to reach zero. If a player scores more than the total required to reach zero, the player "busts" and the score returns to the score that was existing at the start of the turn.
3. When a player reaches zero, the game is over. The winning team is the team with the lowest combined score (both team members). If the game score ends in a tie, the player/team that reaches zero wins. If a player reaches zero when they are "blocked" or "frozen," the win will be credited to the opposing team as a team win only.
4. All general rules of play will apply.

RULES OF PLAY - CRICKET

1. The game of Cricket will be played with a double Bull's Eye.
2. The object will be to close the numbers 20, 19, 18, 17, 16, 15 and Bull's Eye in any order before your opponent(s). The player/team that closes all numbers and the Bull's Eye first, and has a greater or equal point score, wins.
3. An outer Bull's Eye will count 25 points and an inner Bull's Eye will count 50 points.
4. All general rules of play will apply.

FOULS

The following items constitute fouls. Committing a foul may lead to loss of turn, loss of game, loss of match, expulsion from tournament or league, expulsion from site, expulsion from future leagues or tournaments. The tournament officials identified by official Midwest credentials will make all decisions concerning fouls without specific penalties. The penalty for fouling, unless otherwise stated, is loss of turn for the fouling player.

1. Adherence to all general foul rules is required.
2. Fouls must be called within the round in which the foul was committed.
3. Distracting behavior by opponents while a player is throwing is not allowed, and constitutes a foul. Throwing on a non-coined machine is considered a distraction.
4. On a thrown dart, the dart must make contact with the board before the player's foot makes contact with the floor in front of the throw line or a foul has been committed. A player must receive a warning from the opposing captain. If the problem continues, a referee must be called to witness the foul. If the referee determines that there is a foul, the player will lose their next three darts.
5. It is each player's responsibility to see that the machine is displaying the appropriate player's number prior to throwing the darts. Play is stopped immediately when the infraction is noticed.

If the game starts and ends in the same order, the game stands as played. If the wrong player shoots in a game and the infraction is noticed before that player has started his/her second round, the game will be started over with the offending team being responsible for coining the machine. **If the infraction is noticed after the second round, it will be a loss of game for the offending team.** If the infraction is noticed after the start of the next game, the preceding game will stand.

If the player throws while the machine is displaying an opponent's number, this constitutes a foul.

- a) If the player has thrown fewer than three darts, the machine is advanced to their correct position by use of the "Player Change" button, and they are allowed to throw

their remaining darts. The game then proceeds normally with the opponent shooting next and so on.

- b) If the player throws all three darts on the opponent's number before the infraction is noticed, the player has completed their turn and the machine is returned to the proper order (the opponent's number) and the game proceeds normally.
- c) If a player throws out of turn and ends the game on that turn, their team loses that game.

If a player throws when the machine is displaying the number of that player's partner, it constitutes a foul.

- a) If the player has thrown all three darts, their turn is completed. The machine is then advanced to the correct player position and play resumes, except that both players from the offending team lose their next turn.
 - b) If a player has thrown less than three darts when the infraction is noticed, the machine is advanced to their correct player position, and they are allowed to throw the remainder of their three darts. The machine is then advanced to the correct player position and play resumes, except that both players from the offending team lose their next turn.
6. Manually scored points
 - a) on opponents score constitutes a foul. Advance player change button to the correct player position and continue play, except that the player that committed the foul loses their next turn.
 - b) on players own score constitutes a foul. Advance player change button to the correct player position and continue play, except that both players from that team lose their next turn.
 7. If a machine resets due to power failure or other reason beyond control, the game will be started over (replayed from the start).
 8. If a player reaches zero in a round in which that player or that player's partner committed a foul, that player/team loses the game.
 9. Any machine reset, tilt, or malfunction due to intentional or non-intentional player action shall result in loss of game for the team committing the action.
 10. Abuse of equipment, poor sportsmanship, or unethical conduct as judged by a league director or tournament official may constitute a foul.
 11. Any player/team that commits three fouls in one game will forfeit that game.
 12. Any player found to be using overweight darts or otherwise illegal darts shall cause the team to forfeit all games in the match that player has played. The match will then continue with all players using legal darts. Any protest about weight of darts must be

made before completion of the 3rd game, and will not be allowed once a match has been concluded.

13. Disregard of any rules may constitute a foul.
14. All decisions by referees of tournament committee will be final.

SCORING ON THE ELECTRONIC DART MACHINE

1. **If you are playing on a machine that has “back up dart” capability, you should refer to PLAYER CORRECTABLE FEATURES and APPROVED SCORE CORRECTIONS BY A REFEREE under MIDWEST DART TOURNAMENT RULES found in the Captain’s Guide.**
2. The score recorded by the machine is the score that the player receives. The players accept that the machine is always right. The only exception will be on the “Last Dart-Winning Dart” that meets the following criteria:
 - A. The “Last Dart-Winning Dart” must stick.
 - B. If the dart does not stick and the machine awards the win, the machine is right and the game is over.
 - C. The machine was displaying the “Throw Darts” message and all other rules were followed. Then, no matter if the machine fails to score, or scores incorrectly, the player/team will be credited with the win in that game. Example: Player’s score is 24 at the beginning of their turn. Their first dart hits and sticks in the single 9 but does not register or score. Their second dart scores a single 15, leaving the player on 9. The third dart is then thrown in the single 9, but does not register or score. Since it was the “Last Dart-Winning Dart,” that player/team wins the game.
3. A dart that sticks in the board but does not activate the electronic scoring may not be manually scored.
4. If there is any question to whether the machine is scoring or working properly, STOP THE GAME. Do not remove darts or activate the “Player Change.” The team captains must try to solve the problem. If they are unable to do so, they will need to call for service. If the situation cannot be resolved, play will need to be moved to an available board. Scores will be re-entered and play will continue. In tournament play, a referee must be called to resolve the problem.
5. If a dart bounces off the board, it is considered a dart thrown even if it does not score. It may not be thrown again.
6. If a dart is thrown before the “Throw Darts” message lights, the dart will not score and is considered a dart thrown. It may not be thrown again.

OFFICIAL SKILL RATING PROCEDURE

Marks Per Round (MPR) is the official means of classifying and ranking players.

- **MPR:** Marks Per Round is used for all Cricket games. To obtain a MPR, divide the total number of marks scored by the actual

number of darts thrown then multiply by three (3). Example: Player #1 wins the game with their 46th dart. They have achieved a total of 59 marks. Their MPR is $3.85 (59 / 46 \times 3 = 3.85)$. Handicap rounds do not count for the players without darts in that round. When two (2) players are partners on the same number, they record their results individually.

- Cricket: Standard scoring Cricket games with a split (25/50) Bull’s Eye on a 15.5 inch target.
